FNF Gila Bend Streets Project Receives AGC Build AZ Award

On Friday, April 17th 2015, FNF project, [Gila Bend Streets](#) was the recipient of the Associated General Contractors Build Arizona Award in the under 10 Million Dollar Category. The award recognizes projects that meet challenges of a difficult job, excellence in project management, innovation in construction, sensitivity to the environment, excellence in client service, and contribution to the community.

Congratulations to the project team for a job well done!

L to R: Matt Gully (FNF), David Martin (AGC), Leander Elliott (FNF), Rob Bottcher (FNF), Lee Hulbert (FNF)

Gila Bend Streets Project Details

Agency/Owner: Arizona Department of Transportation
Contractor: FNF Construction, Inc.

This \$3.3 million ADOT project is located in downtown Gila Bend on SR Business 8 between the Gillespie canal and I-8 for a distance of 3 miles. The work consisted of milling the existing failed pavement and replacing it with ¾ inch AC along with bridge deck modifications and sidewalk replacements. It became evident early on that maintaining business access and safe pedestrian passage ways along with community relations would be key factors in the project's success.

Many natural and historical wonders are located in and around Gila Bend and attract visitors from around the world. The project team developed goals and a plan that would ensure that these issues were handled effectively and allowed the construction to completely stop during the busiest weeks around Christmas and the New Year. Partnering was an attitude of continuous, high-spirited cooperation and flexibility that was the key to building a quality project on budget and ahead of schedule.
